

Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in commission in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique designs of forklifts, with parts covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Supplier is your total source for availability of all your parts needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark's continual effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for each and every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the system of "Lean Production" at all of its assembly facilities because this system is particularly economical and allows for minimal use of resources. Established to guarantee maximum proficiency, this system is designed to find and acknowledge the most efficient methods for production plant management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The new value engineering program combines modern product growth and provides improved customer support and service within the industry.
