

Meritor Part

Meritor Parts - The Meritor Company is a leading international dealer established upon one hundred years of tradition of service and quality. Meritor specializes in integrated systems along with a range of modules and parts to the original machine makers and aftermarket equipment in the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and feels that this energy contributes to their competitive advantage in the worldwide operations. The company values their clients and wants to guarantee their success while anticipating their various needs. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred individuals, Meritor encourages collaboration and innovation among a team of knowledgeable experts.

Meritor strongly believes in only employing future focused staff. These top-caliber individuals could quickly adapt to changing environments and freely exhibit the level of performance and commitment required to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all their workers various possibilities for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, suspension and braking systems for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of their worldwide engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group who is committed to ensuring optimum progress at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

They have their supplier network that is specially situated to support the development of the business. Each regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each part of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who apply Six Sigma tools to business processes and apply lean methods.
